To whom it may concern,

I highly recommend Sara Clark as a candidate for student ambassador. I have worked with Sara in my capacity as Advisor Specialist at Santa Fe College. While a student at Santa Fe College, Sara maintained a 3.86 GPA while taking a full load of honors classes and seminars. She excelled as the top student in all her programming courses, excels with things like Agile Methods concepts; her instructors in our department speak highly of her performance in their classes, as well.

In addition to her classwork, Sara was also employed in various positions including teaching a programming course to non-IT majors, working as a property claims adjuster, medical technologist, and personal trainer. She accomplished all these tasks with great initiative and with a very positive attitude. Sara has a wonderful rapport with people of all ages, especially the "at-risk" students she worked with at Santa Fe College as the co-founder and President of Programming saints. Sara has a special talent working with the people who need more guidance, helping channel focusses and supporting people beyond learning found in a traditional classroom setting.

Her ability to connect with her students and her talent at teaching simple concepts, as well as more advanced topics, are both truly superior. She has excellent written and verbal communication skills, is extremely organized, reliable, and computer literate. Sara would be a tremendous asset to your program, and I recommend her to you without reservation. If you have any further questions with regard to her background or qualifications, please do not hesitate to contact me.

Sincerely,

Omar Jennings
